

MultimatEasy

Simplicity at its best.

DENTSPLY

Simplicity at its best.

Only those who continuously improve their technology will be able to keep their place among the best. This is why our developers keep improving our mature and time-proven line of furnaces to provide even better performance and easier handling. The result: Our MultimatEasy.

Its technical specifications closely match your day-to-day lab processes. Its compact shape makes it ideal for smaller labs, in-office labs or as a backup furnace. The clear design of the MultimatEasy consciously supports and highlights its simple and easy handling – nothing detracts from the essentials. The well-organized control panel is user-friendly and ergonomically positioned. At the same time, the MultimatEasy features state-of-the-art technology, ensuring precision firing and accurate temperatures. Its two-line alphanumeric display makes working with this unit a pleasant and safe experience.

MultimatEasy

- Exact temperature control
- Compact design – small footprint
- Save firing process by new technology
- Easy operation
- 100 programs
- Well-organized two-line display
- Maintenance-friendly

MultimatEasy

Ergonomically positioned control panel

All the features at a glance – for efficiency and simplicity

Technical specifications may change without notice
Estimated Product Launch 4th Quarter 2007
